## Welcome Message

Nowadays we all have obligation to play a part in developing a security aware culture within business and society. The threat of criminals and terrorist atrocity and sensationalist media grabbing deadly attacks are the aim of these cowardly organizations. They aim to strike fear and terror into our societies by targeting the vulnerable areas - to hit us hard when we least expect it, when we are relaxing, shopping, working, studying and going about our everyday lives.

PetrUS Solutions is fast becoming recognized in providing innovative security solutions for some of the most dynamic, challenging and significant government and commercial projects around the globe. We understand country specific geopolitics, social dynamics and patterns of life as well as having an appreciation of counter terrorism strategy and incident planning expertise.

# Our Services – Security

We identify and reduce risk before they occur and escalate.

## Security Audits

**The risk and threats to your organization are constantly evolving. PetrUS Solutions audits and reviews will assist in ensuring that any organization has effective measures in place to combat and minimize these risks.**

Our consultants will undertake a comprehensive and independent review of your security policies, structures and process to ensure they are effective in dealing with the threat.

Our services offer an in-depth assessment of the following areas:

- ✓ Existing security policies & procedures
- ✓ Security management
- ✓ Background and operation of the locations
- ✓ Security Awareness Training

## Security Management Consultancy

**Do you have enough expertise to guarantee your employees security and to ensure your operations run smoothly? PetrUS Solutions risk management can provide a dedicated security consultant to develop security practices and ensure that the policies are integrated at local and strategic level.**

We can undertake a complete review of the security measures required to manage international projects. This includes local risk assessment, expatriate residential security plans, local security guard training and full site security plans.

We can manage all aspects of security for international projects. This includes liaison with government agencies and local stakeholders, oversight of local security guards, management of all travel security for key staff and implementation of contingency plans were necessary.

## Aviation Security

**Managing the Risk of Motion.** Group Aviation Section deals with all aviation requirements, bringing a host of advanced products and services together as an effective resource in implementing and improving the levels of aviation security for passengers, cargo and property alike.

PetrUS Solutions Aviation Section senior managers are specialists in aviation security and have extensive experience and expertise in the management of airport security programs, airlines, and/or law enforcement.

Whether you need a complete system or a solution that makes your existing systems secure, we work with you to understand your business objectives, risk policies and standards. We then recommend, design, build, integrate and run what you need—a unified protective access system.

# Our Services – Security

Providing a complete range of services under a single roof.

## Residential Security Surveys

**PetrUS Solutions has the expert capability using Police trained Crime Reduction specialist to conduct full residential security surveys.** The survey will evaluate existing security measures and provide recommendations in the form of a comprehensive report outlining any necessary improvements.

PetrUS Solutions security surveys involve in-depth security and safety assessment of a client's accommodations and work site. The exact nature of the survey will depend on the client's needs. All our experts have significant training and experience to conduct surveys on a variety of establishments and facilities, including: complete threat assessment, physical security and safety surveys of accommodations, offices and operating procedures and survey of villa space and facility management.

## Close Protection

**In our experience, executive protection encompasses far more than just establishing a physical presence.** PetrUS Solutions professionals possess a range of skills, including emergency medical training, security driving techniques, and counter-surveillance expertise as well as softer skills such as the ability to exercise diplomacy and tact when needed.

Lifestyle, corporate culture, family, and other considerations make each client's security needs unique. We provide clients with a customized close protection program for their home, office and travel.

Regardless of the services provided, each of our agents recognizes the enormous amount of trust and confidence that clients place in their personal security professional.

## Kidnap and Ransom Support

**Organizations with employees based overseas are especially vulnerable to kidnap and ransom demands,** as are the high-profile executives who work with confidential information or those dealing with large amounts of cash for commercial or charity organizations.

PetrUS Solutions provide security guidelines to help reduce your vulnerability to attack. We also offer executive resilience reviews as well as comprehensive and bespoke training for personnel who travel to high-risk locations.

Our team has first-hand experience of handling extortion and hostage negotiations, identifying risk and designing prevention measures for a range of diverse organizations in the private and public sectors.

# Our Services – Security

Your needs our mission.

## Event Security

We excel at providing services for special events that require a professional, experienced and more refined security presence. PetrUS Solutions Security Operator is trained facilitator who participates in every aspect of an event's safety and security responsibilities.

Our staff and experience is diverse. Our security teams are adept to environments requiring a discrete presence and a conservative approach. We are as equality experienced in providing an assertive posture for events that may be host to controversial attention or attract undesirable elements.

We can provide security managers who can manage media attention, coordinate the special needs of attendees or keynote speakers on safety and security issues.

## Manned guarding

PetrUS Solutions is one of the leading provider of highly trained Security Operators. Our brand and reputation is based on providing an effective, cost efficient, reliable security response to our clients needs. We pride ourselves on our continual development and through this we can set and consistently deliver industry best practices.

All our Security Operators are continuously monitored in African Region by expat and local managers and trained on British Security Industry Authority (SIA) standards. At PetrUS Solutions we see this requirements as the minimum required standard. To that end we employ our own internal training team approved by Highfield to constantly monitor, train and refresh all our staff to ensure each person we employ always receive latest training.

## Guard Management and Supervision

Security services are only as good as the supervision and the infrastructure that supports it. We provide **24-hours-a-day, seven-days-a-week and 365-days-a-year** the right people, in the right numbers, at the right time to make sure that contracted guards are providing services you are paying for.

We have developed and managed contract, proprietary (in-house) and hybrid security guards' systems and we can assist you with:

Supervision of guards in all aspects of daily guard operations (i.e., regularly conduct snap checks to all designated guarding posts and ensure the guards are alert and adhering to the security site procedures), conducting tests for guards (i.e., observation tests, site knowledge test, loyalty test), reporting, liaising and coordinating with the clients' managements, etc.

## Our Services – Security

When seconds count, you can rely on PetrUS Solutions to be there for you.

### 365 Ground Assistance (Armed / Unarmed)

**365 Ground Assistance** is a PetrUS Solutions global service designed to bring clarity, organization and support to personnel or organizations during times of crisis, conflict or simply where the issues involved are beyond the experience and confidence of the personnel dealing with them.

PetrUS Solutions has responded all over the world to many types of incidents for its clients. These have ranged from kidnap and extortion incidents to bomb threats, robberies, hostile take-overs, and violent incidents directed against personnel.

365 Ground Assistance is a 24hours on demand security advisory and armed or unarmed response service for embassies, NGOs or individuals. PetrUS Solutions works hand in hand with Law Enforcement in crime fighting and crime prevention.

# Our Services – Security

Effective evacuation plan can literally be the difference between life or death.

WE'LLGET YOU OUT

## Evacuation & Repatriation

Many of the world's emerging markets are in parts of the world that are politically unstable and rife with armed conflict. PetrUS Solutions personnel have worked in these hostile environments all over the world and many have been involved in high-risk evacuations. We put this expertise to practical use when creating evacuation procedures for our clients.

In most cases, evacuation planning is utilized extensively to evacuate people caught up in ongoing conflicts. Injured persons and commercial workers have been evacuated from troubled areas and the media require evacuation plans set in place in the event of an emergency when reporting.

PetrUS Solutions experts will identify secure rally points within each country where clients would be escorted to in the event of an emergency. All locations will be fortified against forced entry and stocked with provisions, medical supplies and have secure, satellite-based communications. If evacuation protocols must be implemented, personnel will be evacuated under guard from the rally sites and escorted to a predetermined place of safety. The preferred means of evacuation is by helicopter but ground transportation in heavily armored vehicles or evacuation by sea may also be indicated depending upon location, the nature of the incident and other variables.

# Our Services – Security

With the focus on excellence through quality. The Right Service for Each Client

## Secure Ground Transport

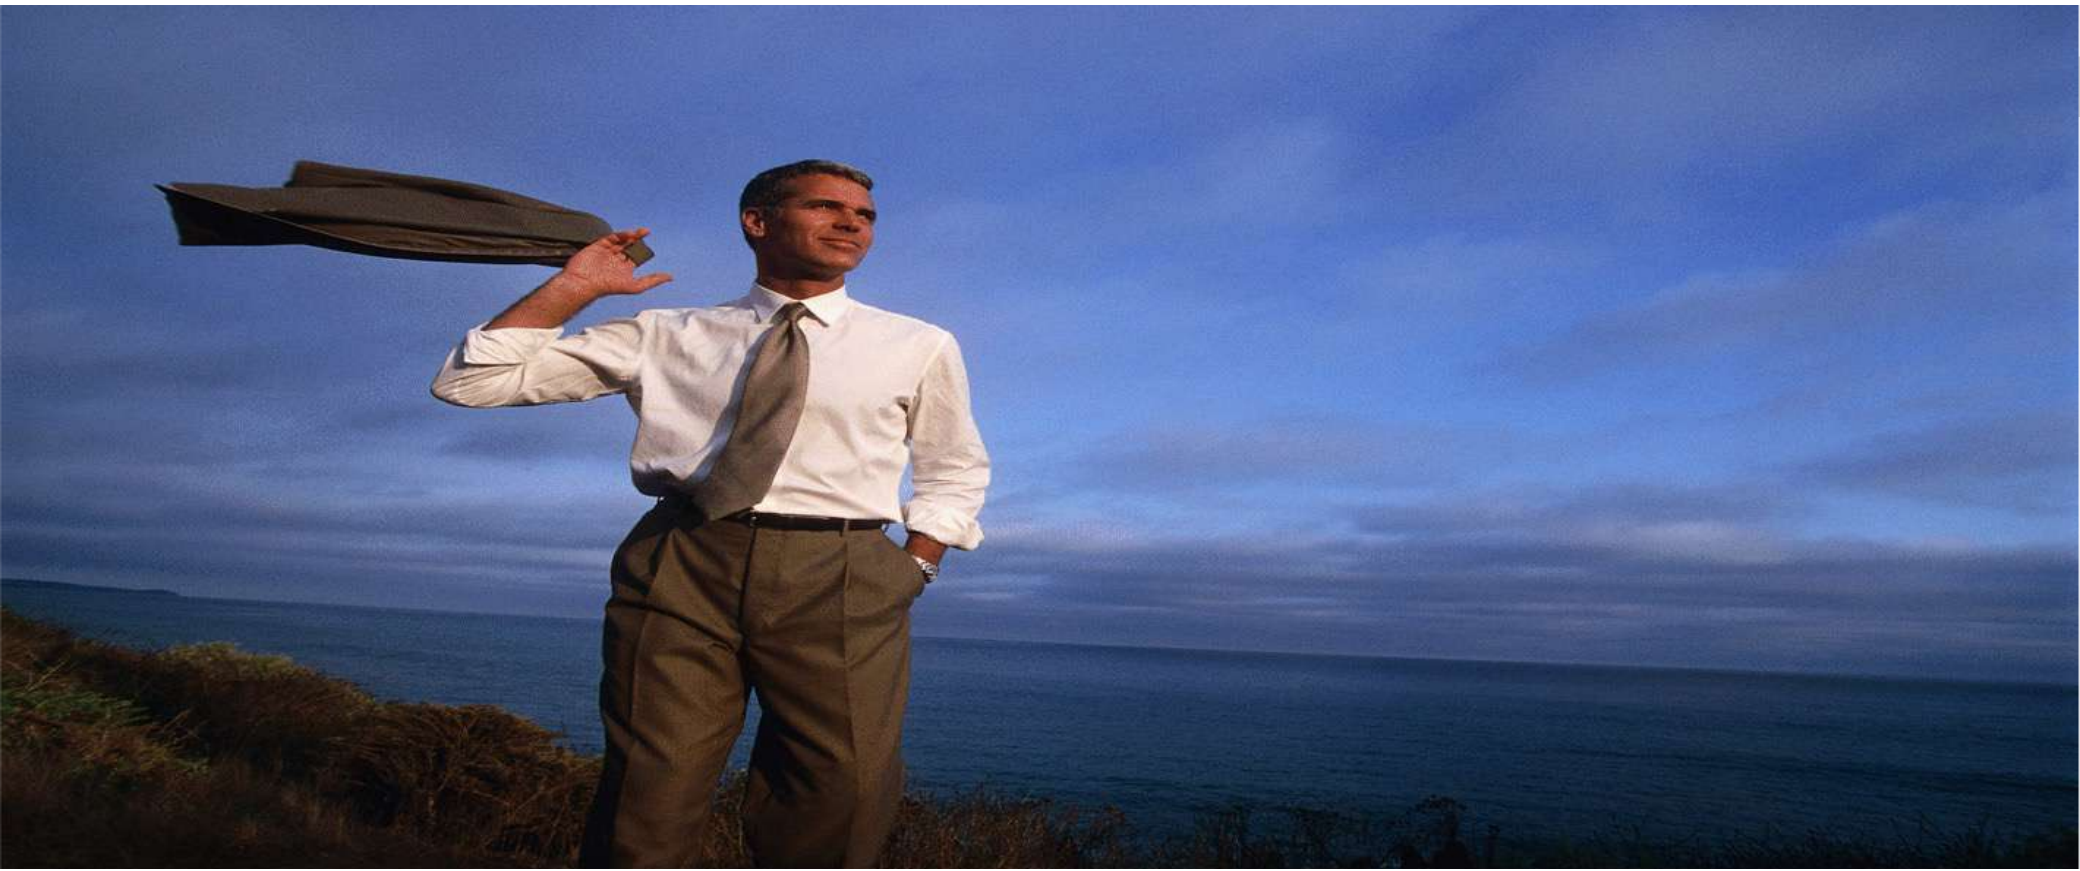

**PetrUS Solutions** offers secure, discreet transportation for executives, whether they're under immediate threat or simply want the added protection. Our highly skilled Operatives are fully background checked and trained to provide complete protection, instilling confidence in clients as they are transported safely to and from their destination.

**We pays special attention to** the details that make the embassy employee's work environment not only secure, but also productive, pleasant, and memorable. Clients can always expect excellence regardless of travel location or culture. With high quality personnel, we stick to OUR MISSION "We provide peace of mind to our clients through proactive security services while enhancing their personal safety and protecting their properties and proprietary information."

**The complete secure transport solution includes** advance travel, hotel and logistics arrangements, security briefing with clients upon arrival, expert drivers trained in personal security and protective driving, fully insured fleet, and personnel and drivers fluent in various languages.

Many executives have effective personal security programs while at their place of primary business or residence. Providing that same level of security while the executive is traveling is logistically challenging and cost prohibitive. Executives travel with greater frequency, and often to new and unfamiliar destinations. It is precisely during these trips that the executive is at the greatest risk. PetrUS Solutions provides Executive Protection Services to traveling executives regardless of where their agenda takes them. We maintain a network of professional security globally. We provide an unmatched level of service and experience that clients can rely upon. Our approach to Executive Protection is unique as we ensure that our personnel receive the same training and level of corporate support, all while adhering to petrUS Solution's standards of client service and attention to detail.

## **Protecting Traveling Executives.**

## Special Event Security

**PetrUS Solutions** provides far more than physical security during events. Our experienced professionals work closely with event coordinators on overall safety management. Early in the planning stage, we develop a complete Security Program that addresses each phase of the event, from planning and set-up to breakdown and post-event review. The Security Program is a unified plan that defines risks, goals and management's preferred responses to every conceivable occurrence, as well as measures, both preventative and reactive, to mitigate them. The PetrUS Solutions gives event planners confident control over any security or safety challenge.

## Our Services – K9 special forces dogs

**We make people safe.**

All our PetrUS Solutions patrol dogs are fully trained in criminal apprehension and handler protection. Our dogs are not sport dogs that are solely focused on equipment and routines, they are man oriented, not equipment oriented and are prepared to readily apprehend criminal suspects when required. Our petrUS Solutions patrol dogs are conditioned to deal with passive bites, handler attacks and are trained to target a number of areas on the suspect to ensure that they are able to make an apprehension even when a suspect is concealed. Our patrol dogs are exposed and neutral to gunfire from both the suspect as well as the handler and arrest team.

PetrUS Solutions patrol dogs are also trained to be proficient in conducting tactical building searches, area and wooded searches, evidence/article recovery as well as scent discrimination and variable surface trailing. We utilize and promote scenario-based Police K9 training for all dog teams to ensure that they are prepared to tackle the extreme challenges that are faced by today's law enforcement and military dog teams.

PetrUS Solutions dual purpose dogs are fully trained Police Patrol K9s who are also trained in explosives detection. Our detection dogs are trained in and prepared for a variety of environments including warehouses, residences, schools, etc. They are proficient in searching all types of vehicles, including passenger cars, commercial vehicles, buses, etc.

# Intelligence Services

When You Need Intelligence, You Need PetrUS Solutions.

## Reputational Risk

Our team can help companies identify and mitigate the risks through **early identification of potential issues** before they escalate, such as sexual harassment and workplace bullying, fraudulent practices, and executive misconduct. We can also help you gather intelligence for successful protection against **hostile actors** affecting your business. Our **social media** risk assessment and ongoing monitoring will guide your decisions regarding the use of social media influencers and identify risks associated with online **content**.

## Enhanced Due Diligence

Comprehensive background information to assist with Know Your Customer, Third-Party Due Diligence, and Supply Chain Due Diligence.

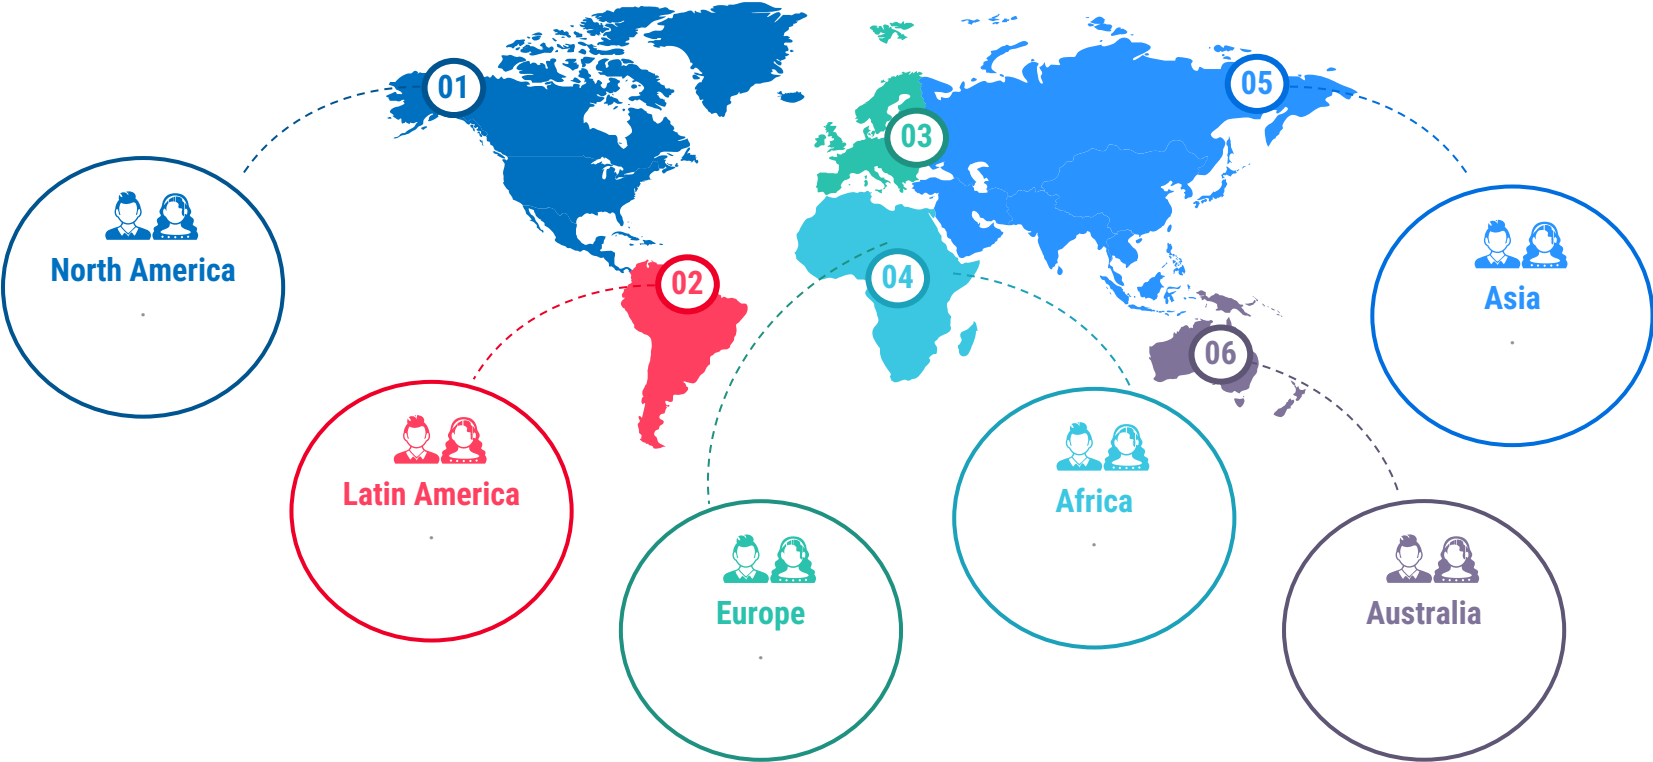

## Competitor Intelligence

Our team can provide you with a reliable knowledge of your competitors' environment to inform your strategic and operational decision making. Some of these insights include management structure and decision-making process, stakeholder engagements and the supply chain, R&D capabilities and talent retention strategies.
